

BPUG™
Best Practice User Group

Overview

As the official user group for the OGC's PPRM best practice methods, we provide a platform for individuals, organisations and the community as a whole to share knowledge and exchange ideas.

BPUG™ has been set up to help users adopt, use, share and shape the application of OGC's PPRM products, PRINCE2®, MSP®, M_o_R® and P3O®. We achieve this through a programme of newsletters, regional workshops on a wide variety of topics, an annual members conference and international congress, online forum, provision of downloadable resources and by involving users in the process of feedback to OGC.
